### MICHIGAN PEAT

**Michigan Peat is 97% organic matter**, weed free and contains almost 3% available natural nitrogen.

Michigan Peat is **not** a sphagnum or moss peat—but a **sedge** type peat that is decayed vegetation from extensive deposits, centuries old. It is rich brown in color and furnishes the "humus" necessary for **greener** lawns—**stronger** root systems—**more abundant roses—blooms—flowers—healthier plants and vegetables.**

Michigan Peat is an "organic soil builder" and easy to use. No screening and breaking up to do. It is finely textured, uniform and makes gardening a pleasure. It absorbs moisture and releases nitrogen as it decomposes. Michigan Peat combines the benefits of peatmoss, humus and chemical conditioners in one "**all purpose**" soil conditioner. It is in a class by itself.

Michigan Peat is now offered for the first time in the Northwest. Five convenient size packages to fit your needs. Three **new** Michigan Peat Brand Products also available. Attractive polyethylene bags for counters.
